

Furqan Ahmed

INTERSHIPS

Goodz, Hyd

Machine Learning Intern

Apr – Sep 2024

- Developed and optimized machine learning models for predictive analytics and business insights.
- Implemented feature engineering techniques, improving model accuracy by 15%.
- Worked on real-world datasets, handling data preprocessing, cleaning, and transformation using Pandas and Scikit-learn.
- Designed and deployed machine learning pipelines, integrating automation tools.

Naresh IT, Hyd

Machine Learning Intern

Oct – Jan 2025

- Worked with AI agents and automation models in AI/ML applications.
- Gained hands-on experience in Gen AI (LLMs, LangChain, Prompt Engineering).
- Explored AI-driven solutions for business automation and data-driven decision-making.

PROJECTS

Basic Computer Vision Project – Object Detection with OpenCV

- Implemented an object detection system using OpenCV and TensorFlow.
- Processed image data to identify objects and classify them in real-time.
- Gained experience in image processing and **VFX-related AI techniques**.

Live Stock Price Tracker AI Agent with LangChain

- Built an AI-powered stock price tracker using LangChain for real-time analysis.
- Integrated LLMs to provide insights on stock trends and fluctuations.
- Developed an interactive chatbot capable of answering finance-related queries.

SKILLS

Technical Skills:

- Python (Pandas, NumPy, Scikit-learn), SQL
- **Machine Learning:** Regression, Classification, Clustering, Feature Engineering
- **AI/ML Frameworks:** Scikit-learn, LangChain, Basic Computer Vision (OpenCV, TensorFlow)

Tools and Software:

- Jupyter Notebook, VS Code, Power BI, Git

Soft Skills:

- Analytical Thinking, Problem-Solving, Communication, Team Collaboration

EDUCATION

Lords Institute of Engineering and Technology

B.Tech in Information Technology
2021 – 2025

CERTIFICATIONS

- AI & Machine Learning Certification – Naresh IT (2025)
- Machine Learning - Goodz(2024)
